

Company Overview

VPC Specialty Lending Investments PLC ("VSL" or the "Company") invests in opportunities within the specialty lending market primarily through online lending Platforms. The Company completed its IPO on 17 March 2015 with a premium listing on the Official List of the UK Listing Authority and trading on the Main Market of the London Stock Exchange. The Company's trading symbol is VSL.

The Company's investment manager is Victory Park Capital Advisors, LLC ("VPC" or the "Investment Manager"). VPC is an SEC-registered investment adviser and acts as the AIFM of the Company.

Since 2010, the Investment Manager has been actively involved in the specialty lending marketplace and has made more than \$3.7 billion of investments and commitments across various financial technology Platforms, spanning multiple geographies, products and structures, and is continuing to deploy capital into existing Platform capacity at an average monthly rate in excess of \$120 million from VSL as well as VPC's other investment vehicles.

The Company's Investment Objective

Increased banking regulation (particularly in Europe and the U.S.) is imposing restrictions on certain types of lending by banks to both consumers and small businesses, leading to a growing market for specialty lending Platforms. The online lending market continues to expand rapidly as both borrowers and investors recognize the advantages relative to the traditional bank lending model.

The Company seeks to generate an attractive total return for shareholders consisting of dividend income and capital growth via investments across a diverse portfolio of various online lending platforms (each a "Platform"), asset classes, geographies (primarily U.S., U.K. and Europe) and credit bands.

The Company generates investment income from exposure to Platform-originated consumer and small business loans, including corporate and trade receivables, in accordance with certain investment limits and restrictions to ensure diversification of the Company's portfolio is maintained and that concentration risk and credit exposure is mitigated. In addition, the Company may also make direct equity investments, or receive warrants to purchase equity stakes, in such Platforms.

Monthly Commentary

The Company continued to execute on its investment objectives and delivered a NAV return of 0.51% for the month of August. Additionally, on 13 August 2015, the Company declared its first interim dividend of 0.9 pence per share for the period to 30 June 2015.

The Company’s investments are diversified with exposure to 17 Platforms originating consumer and small business loans, in addition to companies supporting the specialty lending market, across the U.S., U.K. and Europe. The Investment Manager’s experience in the specialty lending sector and diversified capital base, we believe, makes it an attractive partner to Platforms globally and enables the Investment Manager to generate proprietary deal flow for the Company.

In August, the Company made an initial equity investment in Orchard App, Inc. Furthermore, the Company closed and began borrowing from a \$125 million non-recourse credit facility at the special purpose vehicle level to leverage Prosper loans, which is expected to be accretive to returns. This follows the closing of similarly structured leverage facilities for Funding Circle and Avant loans in May and July 2015, respectively. The Investment Manager believes that these facilities are an important step in the process and expects that they will enable the Company to obtain term financing at an attractive cost via a securitisation in the public markets.

As at 31 August 2015, consumer exposure accounted for 72% of the invested portfolio, while small business exposure accounted for 28%. Investments in U.S. Platforms accounted for 80% of the invested portfolio, with the remainder being predominantly UK-based loans. As part of these investments, the Company has equity exposure to nine Platforms through equity securities or convertible notes.
