

Company Overview

VPC Specialty Lending Investments PLC (“VSL” or the “Company”) invests in opportunities within the specialty lending market primarily through online lending Platforms. The Company completed its IPO on 17 March 2015 with a premium listing on the Official List of the U.K. Listing Authority and trading on the Main Market of the London Stock Exchange. The Company’s trading symbol is VSL for the Ordinary Shares.

The Company’s investment manager is Victory Park Capital Advisors, LLC (“VPC” or the “Investment Manager”). VPC is an SEC-registered investment adviser and acts as the AIFM of the Company.

Since 2010, the Investment Manager has been actively involved in the specialty lending marketplace and has made more than \$4.6 billion of investments and commitments across various financial technology Platforms, spanning multiple geographies, products and structures, and is continuing to deploy capital into existing and new Platforms.

The Company’s Investment Objective

Increased banking regulation (particularly in Europe and the US) is imposing restrictions on certain types of lending by banks to both consumers and small businesses, leading to a growing market for specialty lending Platforms. The online lending market continues to expand rapidly as both borrowers and investors recognise the advantages relative to the traditional bank lending model.

The Company seeks to generate an attractive total return for shareholders consisting of dividend income and capital growth via investments across a diverse portfolio of various online lending platforms (each a “Platform”), asset classes, geographies (primarily US, UK, Europe and Australia) and credit bands.

The Company generates investment income from exposure to Platform-originated consumer and small business loans, including corporate and trade receivables, in accordance with certain investment limits and restrictions to ensure diversification of the Company’s portfolio is maintained and that concentration risk and credit exposure is mitigated. In addition, the Company may also make direct equity investments, or receive warrants to purchase equity stakes, in such Platforms.

Ordinary Share Portfolio Composition (As at 30 September 2016)¹

Monthly Commentary

During September, the Company's revenue return was 40 bps, which was offset by a reduction of capital in the amount of -24 bps, for a net return of 16 bps. The Investment Manager continues to allocate capital into balance sheet investments, which now account for 51% of the investment portfolio³ versus 43% for whole loans as at 30 September 2016. The Company's whole loan portfolio weighed on revenue performance and continued volatility in the Company's holdings in certain tranches of ABS securitizations drove the reduction in capital during the month.

As at 30 September 2016, the Company had investments in debt instruments from 23 platforms, 17 of which were balance sheet investments, and had equity stakes in 18 platforms. The Company's investments are geographically diversified with investments in the U.K., Europe, Latin America and Australia, in addition to the U.S. Aside from cash reserved and held as margin against FX hedging contracts, which as at 30 September 2016 represented 3.5% of the Company's NAV, the Company has invested substantially all of its equity. Gearing was approximately 0.87x as at the end of September.

Events Subsequent to 30 September 2016

On 3 October 2016 VPC purchased 76,489 shares of the Company at a price of £0.8175 per share, under the previously announced agreement between VPC and the Company.
