

Company Overview

VPC Specialty Lending Investments PLC (“VSL” or the “Company”) invests in opportunities within the specialty lending market primarily through balance sheet or marketplace lending models (“Portfolio Companies”). The Company completed its IPO on 17 March 2015 with a premium listing on the Official List of the U.K. Listing Authority and trading on the Main Market of the London Stock Exchange. The Company's trading symbol is VSL for the Ordinary Shares.

The Company's investment manager is Victory Park Capital Advisors, LLC (“VPC” or the “Investment Manager”). VPC is an SEC-registered investment adviser and acts as the AIFM of the Company.

Since 2010, the Investment Manager has been actively involved in the specialty lending marketplace and has made more than \$5.2 billion of investments and commitments across various financial technology Portfolio Companies, spanning multiple geographies, products and structures, and is continuing to deploy capital into existing and new Portfolio Companies.

The Company's Investment Objective

Increased banking regulation (particularly in Europe and the U.S.) is imposing restrictions on certain types of lending by banks to both consumers and small businesses, leading to a growing market for specialty lending Portfolio Companies. The online lending market continues to expand rapidly as both borrowers and investors recognise the advantages relative to the traditional bank lending model.

The Company seeks to generate an attractive total return for shareholders consisting of dividend income and capital growth via investments across a diverse portfolio of various online lending providers, asset classes, geographies (primarily U.S., U.K., Europe and Australia) and credit bands.

The Company generates investment income from exposure to Portfolio Company-originated consumer and small business loans, including corporate and trade receivables, in accordance with certain investment limits and restrictions to ensure diversification of the Company's portfolio is maintained and that concentration risk and credit exposure is mitigated. In addition, the Company may also make direct equity investments, or receive warrants to purchase equity stakes, in such Portfolio Companies.

The Company's Performance (As at 30 June 2017)¹

Monthly Commentary

In June, the Company's income return of 0.66% increased for the sixth consecutive month and its capital return was -0.62% for a net total return of 0.04%. Further details on the returns are as follows:

As in recent months, income was derived predominantly from the Company's balance sheet loans, which continued to perform strongly; incurring no credit losses and contributing a gross monthly income of 0.70%. Although in June there was an 10% net increase in the percentage of NAV allocated to balance sheet investments, the deployment occurred close to the end of the month and therefore will more significantly impact monthly income in subsequent months.

Gross capital returns were -0.62%. Of this, the equity portfolio generated -0.52%, while FX accounted for -0.10%. Marketplace loans and securitization residuals both generated zero capital returns in June, however, it is likely too soon to conclude that the trend of negative returns from these areas has abated.

The gross equity returns of -0.52% primarily consisted of a 0.17% gain from the publicly listed share portfolio (mainly driven by Elevate), offset by a return of -0.43% from a reversal of the unrealized gain on a portfolio company convertible debt position that was valued above its face amount using an equity round which was well advanced but did not complete as expected. Consequently, the Company did not convert the debt and it subsequently matured on 30 June 2017 at par plus accrued interest, which resulted in a write down to its former book value. The portfolio company in question remains well capitalized. Other smaller valuation adjustments on unlisted equity positions accounted for a -0.26% return during the month.

In line with the Investment Manager's stated strategy, capital continues to be reallocated from marketplace loans to balance sheet investments. At month-end, balance sheet debt investments accounted for 66% of NAV compared to 56% at the end of May and marketplace loans accounted for 15% of NAV, which is unchanged from the end of May. The Company's cash level was down to 8% of NAV at month end (and has declined further in July).

In June, the Company made its initial balance sheet investments in two new companies. The first portfolio company is a leading provider of alternative financial services to underbanked consumers across the United States and the second portfolio company, Bread, provides online point-of-sale, private label financing solutions for retailers. Following these investments, the Company had investments in debt instruments of 27 Portfolio Companies, 22 of which were structured as balance sheet investments. In addition, the Company had equity stakes in 21 Portfolio Companies.

During June, the Company purchased a total of 322,765 shares at an average price of 81.91p under the share buyback program. In addition, the Investment Manager used 20% of its management fee to purchase 72,939 shares at an average price of 82.25p.

Events Subsequent to 30 June 2017

In July, the Company deployed additional capital into balance sheet positions equivalent to approximately 4% of the end-June NAV. Following this deployment, the pro forma end-June allocation to balance sheet investments reached 70%, indicating substantial further progress with this reallocation strategy.

In August, the Company sold the majority of its equity exposure in a portfolio company, zipMoney, (Australian point of sale credit provider), taking advantage of significant share price appreciation following the announcement of a strategic investment by Westpac. The shares sold were equivalent to 0.50% of the Company's end-June NAV. The sale price equates to a 3.9x multiple of the original investment, following a 20-month holding period. The remaining zipMoney equity-option position accounted for 0.39% of the Company's end-June NAV.

From 1 July 2017 to 11 August 2017, the Company repurchased an additional 2,500,000 shares at an average price of 81.03 under the share buyback programme, bringing the cumulative total to 7,606,294 shares (1.99% of gross share issuance).

²Percentages calculated on a look-through basis to the Company's investee entities and SPVs.

³Calculations using gross asset exposure and not reduced for gearing. Excludes cash.

⁴The Gross and Net NAV (Ex Income) Returns disclosed in this report are the same, excluding the impact of share buybacks on the return, as there are no operating and other expenses of the Company allocated to the NAV (Ex Income) Return as defined within the Glossary of Terms on page 5.

Glossary of Terms

Gross Assets – The value of the assets of the Company including **Look-through Gearing**.

Gross Returns – Represents the return on shareholder's funds per share on investments of the Company before operating and other expenses of the Company.

Income Return – Represents the difference between the **NAV (Cum Income) Return** and the **NAV (Ex Income) Return** as defined below.

Last Three Months Return – Represents the return on shareholder's funds per share reflecting the change in NAV for the trailing three months, including the current month.

Last Twelve Months Return – Represents the return on shareholder's funds per share reflecting the change in NAV for the trailing twelve months, including the current month.

Look-through Gearing Ratio – The aggregate leverage of the Company and any investee entity, on a look-through basis, including borrowing through securitization using SPVs.

Market Capitalisation – Month-end closing share price multiplied by the number of shares outstanding at month end.

Month To Date Return – Represents the return on shareholder's funds per share reflecting the change in NAV for the current month.

NAV (Cum Income) or NAV or Net Asset Value – The value of assets of the Company less liabilities determined in accordance with the accounting principles adopted by the Company.

NAV (Cum Income) Return – The total return on shareholders' funds per share reflecting the change in NAV assuming that dividends paid to shareholders were reinvested at NAV at the time dividend was announced.

NAV (Ex Income) Return – The NAV of the Company, including current year capital returns and excluding current year revenue returns and unadjusted for dividends relating to revenue returns.

NAV per Share (Cum Income) – The NAV (Cum Income) divided by the number of shares in issue.

NAV per Share (Ex Income) – The NAV (Ex Income) divided by the number of shares in issue.

Number of Underlying Loans – The number of marketplace loans owned by the Company or held as collateral for balance sheet loans.

Premium / (Discount) to NAV (Cum Income) – The amount by which the share price of the Company is either higher or lower than the NAV per Share (Cum Income), expressed as a percentage of the NAV per share.

Share Price – Closing share price at month end, excluding dividends reinvested.

Weighted Average Coupon – The weighted average gross interest rates charged on the underlying marketplace loans or balance sheet loans owned by the Company.

Weighted Average Life at Origination – The weighted average duration of the underlying marketplace loans owned by the Company at the time they were originated.

Weighted Averaged Remaining Life – The current weighted average duration of the underlying marketplace loans or balance sheet loans owned by the Company.

Weighted Average Loan Size (\$USD) – The weighted average size in USD of loans invested by the Company or held as collateral.

Important Information

All data in this monthly report (the “report”) is at or to the final day of the calendar month identified in the heading of the report’s front page unless otherwise stated.

Past performance should not be seen as an indication of future performance. The value of investments and any income may fluctuate and investors may not get back the full amount invested. The views expressed are those of VPC at the time of writing, are subject to change without notice and do not constitute investment advice.
