Monthly Commentary

During the month, the Company produced strong revenue returns which were broadly diversified across the portfolio of 25 balance sheet deals. The portfolio composition was consistent with the prior month. There was no significant portfolio attribution and credit performance remained strong. The Company deployed the majority of its remaining uncalled cash from refinancing activity earlier in the year, and as a result, the Company was nearly fully invested at month end.

The positive capital return was largely driven by a significant valuation increase in a minority equity position, which resulted from a Series B investment into one of our emerging market portfolio companies in Latin America. The round was led by a leading venture capital firm in the region and we remain optimistic that the best-in-class management team will continue to scale the business.

During May, the Company purchased a total of 993,146 shares at an average price of 79.91p under the share buyback program.

Events Subsequent to 31 May 2018

From 1 June 2018 through 21 June 2018, the Company did not repurchase any shares under the share buyback programme. The Company continues to be nearly fully invested.

Monthly Report – May 2018

VICTORY PARK

Company Overview

VPC Specialty Lending Investments PLC ("VSL" or the "Company") invests in opportunities within the financial services market primarily through balance sheet or marketplace lending models ("Portfolio Companies"). The Company completed its IPO on 17 March 2015 with a premium listing on the Official List of the U.K. Listing Authority and trading on the Main Market of the London Stock Exchange. The Company's trading symbol is VSL for the Ordinary Shares.

The Company's investment manager is Victory Park Capital Advisors, LLC ("VPC" or the "Investment Manager"). VPC is an SEC-registered investment adviser and acts as the AIFM of the Company.

Since 2010, the Investment Manager has been actively involved in the specialty lending marketplace and has made more than \$5.8 billion of investments and commitments across various financial technology Portfolio Companies, spanning multiple geographies, products and structures, and continues to deploy capital into existing and new Portfolio Companies.

The Company's Investment Objective

Increased banking regulation (particularly in Europe and the U.S.) is imposing restrictions on certain types of lending by banks to both consumers and small businesses, leading to a growing market for specialty lending Portfolio Companies. The online lending market continues to expand rapidly as both borrowers and investors recognise the advantages relative to the traditional bank lending model.

The Company seeks to generate an attractive total return for shareholders consisting of dividend income and capital growth via investments across a diverse portfolio of various online lending providers, asset classes, geographies (primarily U.S., U.K., Europe and Australia) and credit bands.

The Company generates investment income from exposure to Portfolio Company-originated consumer and small business loans, including corporate and trade receivables, in accordance with certain investment limits and restrictions to ensure diversification of the Company's portfolio is maintained and that concentration risk and credit exposure is mitigated. In addition, the Company may also make direct equity investments, or receive warrants to purchase equity stakes, in such Portfolio Companies.

Important Information

All data in this monthly report (the "report") is at or to the final day of the calendar month identified in the heading of the report's front page unless otherwise stated.
