Monthly Commentary

The Company continues to see strong underlying performance across the balance sheet investment portfolio. The gross revenue return decrease from the previous month was solely driven by the short-day count in February. Gross capital returns were negative due to unrealised losses on the Company's publicly traded equity investments.

On 24 February 2022, the Company declared its 15th consecutive dividend of 2.00 pence per share for the three-month period to 31 December 2021 which will be paid to shareholders on 31 March 2022.

During the month, the Investment Manager purchased 55,721 shares of the Company with 20% of its monthly management fee following the announcement of the December NAV.
