For the month, the average interest rate on the portfolio was 14.7% compared to 13.9% in November 2022. The Company's gross capital return for the month was -2.28% (-2.31p). This was driven primarily by changes to the Company's credit investments (-0.71%), unlisted equity investments (-0.49%) and the publicly traded investments (-0.99%).

The Board is working closely with the investment manager to assess how the orderly wind down of assets will be conducted over the next few years and a timescale will be communicated as part of a Shareholder circular.
